

# EmbedUR - Linux Training Program

## Module - 3

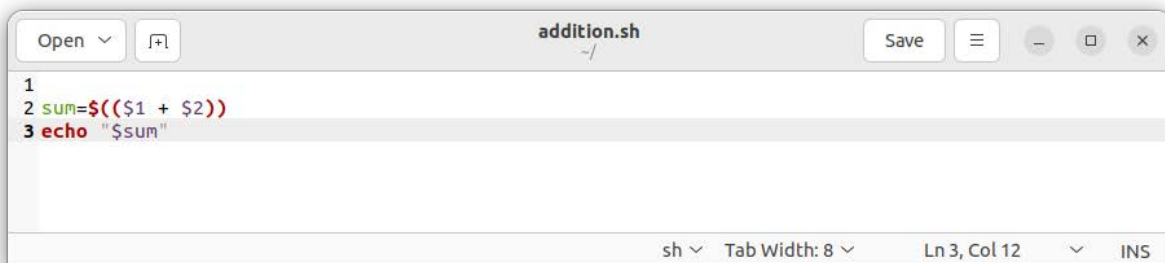

### Assignment – 16 (Command Line Arguments and Quoting)

1) Write a bash program for addition using command line arguments.

Output:

```
sri@sri-Mi-NoteBook-Horizon-Edition-14: ~  
sri@sri-Mi-NoteBook-Horizon-Edition-14:~$ gedit addition.sh &  
[1] 12344  
sri@sri-Mi-NoteBook-Horizon-Edition-14:~$ ./addition.sh 3 6  
9  
sri@sri-Mi-NoteBook-Horizon-Edition-14:~$
```

```
1  
2 sum=$((($1 + $2))  
3 echo "$sum"
```
